## SOLUTIONS TO YOUR AUTOMATION CHALLENGES

### Automated Conveyors | Industrial Conveyor Systems

Wrabacon is a company who specializes in creative custom automation. We employ a team of mechanical and electrical engineers, as well as programmers. We have backgrounds in a variety of industries including food, pharmaceutical, automotive, sporting goods and other consumer products.

We design and manufacture equipment that will convey, accumulate, merge, divert, pick & place, transfer, orient, stack, denest and lid different types of products. Wrabacon can also provide complete system integration for a project if required.

Our engineering department uses state-of-the-art computers and CAD systems to produce sound engineering designs. We have a complete panel shop with experienced technicians for the most sophisticated projects.

As a team, we will provide a simple and cost effective design for your application. No matter how complex, Wrabacon can provide the solution. We can also manufacture to customer specifications. We routinely fabricate in stainless steel, extruded aluminum and painted steel. We also manufacture to the stringent requirements of the food and pharmaceutical industries.

Every piece of equipment is fully assembled and thoroughly tested before it's shipped. Wrabacon guarantees that every system will perform as specified.

Wrabacon was founded in 1986. Located in Northern New England, in an area that nurtures craftsmanship, innovation and ingenuity, our people take pride in producing quality equipment. Over the years we've built a solid reputation of providing quality equipment at reasonable cost. We at Wrabacon would appreciate the opportunity to work with you on a future project.

#### Inside this issue:

Lumsden's Edgewise stops tangles	2
Wiremation on the right track	2
SATECH Anti-Fatigue Mats	2
REMCO Sanitation Products	3
POBCO adds New Products	3
BS&k Can work for you	3

#### Special points of interest:

- Lumsden solves the dreaded problems of "belt snagging".
- Wiremation Introduces standard sprocket driven mesh belts
- SATECH has the next generation of anti- fatigue mats to support you workforce.
- REMCO can clean up your sanitation problems
- Pobco expands the PET product offering and offers the new 2008 catalog

## LUMSDEN'S EDGEWISE BELT HAS DRASTICALLY REDUCED BELT WASTE DUE TO TANGLING

Lumsden's Edgewise edge has proven to many customers that this design prevents tangling and catching of the wires both on and off the machine. They come off the rolls un-tangled, they don't catch on adjoining belts, and there are no ends to bend open and break. Less downtime, less scrap and with the buffed edge, less cut hands.

With the edgewise edge, wires do not have to be opened and then closed again to splice belt. This prevents the ends from breaking off, and having to re-splice the belt, Edgewise edges are available on all belts in the 3/8", 1/2" and 5/8" pitches. The part numbers get a "6" in front of them, but everything else stays the same. For a sample or additional information, please call us at (800) 634-1114.

## WIRESMATION "GIVES TEETH" TO SPROCKET DRIVEN MESH BELTS WITH TRAXX-RITE

Wiresmation introduces a line of sprocket driven mesh belts. By incorporating a Balanced Weave Belt with a corresponding sprocket, positive tracking can be achieved.

This belt is used in the food industry where a tight transfer or exact timing is needed. The sprocket eliminates belt slippage when the product or process creates slippery conditions. The teeth of the sprocket

meshes into the openings of the belt to create a positive drive. Much less expensive than heavy chain edge belts.

Don't be fooled by others that tell you it can't be done or they are the only company that can make this happen. Wiresmation has been doing this for years and has many satisfied customers.

Now, we offer a standard product line of meshes and sprockets. Let us show you what we can do!

- TR 18-16-16, TR30-24-17,
- TR30-31-16, TR42-36-18,
- TR48-52-17, TR60-48-18/20

## ANTI-FATIGUE TECHNOLOGY TO REDUCE INJURIES AND FATIGUE AND INCREASE PRODUCTIVITY

SATECH offers the marketplace a new generation of cushioning technology for workplace, healthcare, athletic and equestrian applications to reduce fatigue and injury and improve productivity. Stand-

SmartCells anti-fatigue mats, runners and platforms. Elderly and frail individuals are provided fall protection from SmartCells

ing workers experience less back, leg and foot pain, from Smart-

shock-attenuating surfaces. Athletes train more efficiently with less injuries due to Smart-

# REMCO PRODUCTS

REMCO KEEPS YOUR WORKPLACE CLEAN AND SANITARY

Products from Remco can be color-coded to help divide the production cycle into different zones or tasks. By identifying these as different cleaning areas, the movement of contaminants around the production area can be effectively blocked.

Let BS&k show you how REMCO products can clean up your sanitation problems and let you get back to what you do best, that is, running your business.

## POBCO ADDS TO THE MANY COMPONENTS THEY MAKE FOR CONVEYORS AND CONVEYING

Pobco has the new 2008 catalog out. It contains 128 pages of conveyor components such as Lube Filled Chain guides, Slit Flange Bearings, Roller Chain Guides, with #50 K-1 attachments, Low Friction UHMW Neck Guides, Accumulator Conveyor Tubing, one and two piece Spools, Medium Duty Sanitary Mounts, Pillow Blocks, 2 bolt Side Flange, 3 bolt Flanges and 4 bolt Side Flanges, plus a whole lot more.

## BS&k COMPANY INTEGRATES LOCAL SERVICE WITH NATIONAL KNOWLEDGE

The BS&k company has been providing local service to companies for 9 years. Knowledge that we have gained from national companies has allowed us to service companies locally, the way most national companies get serviced. Let us work with you and provide the following:

- Plant Surveys
- Complimentary Product lines
- Competitive Pricing
- On-site troubleshooting
- Installation Assistance
- Order History Analysis
- Stocking Plans

Contact us today and let us show you what we can do for you. No cost / no obligation! Ask for our CD with literature and other information on it.
