IN MOTION FOR YOU ...

Summer 2007

Volume 9, Issue 3

KVP CONTINUES TO BRING NEW PRODUCTS TO MARKET TO MEET YOUR REQUIREMENTS

Traction Pro: 1" pitch All-In-One belt

with a co-molded friction surface rubber top is great for the right amount of needed friction

The proven design of the All-In-One belt is enhanced with this feature where friction and strength is required.

Texture Top: 1/2" pitch belt with the top surface recessed for retention and release for dough handling makes movement and cleaning a reality.

This belt, another member of the 1/2" pitch family, fills yet another void in the processing belt offerings

Spiral Pro: 1 1/2" pitch, 1.3 turn radius spiral belt for spiral freezers, coolers and proofers. This is another radius belt that KVP offers to solve your production requirements. Call for a no obligation quote today. Now, we offer a 1:1 turn radius based on the same KVP proven technology and designs. Whatever your requirements, let our S.N.A.P. team jump into action to provide the best product for your process, and be protected with assistance after the sale.

HDU The newest addition to our Heavy Duty 2" Pitch Series of belts. Designed along the HDS platform, we now have an Impact Bar for support, as well as the Solid Top, EZ-Release Surface, Curved Top and Vented Top.

Inside this issue:

POBCO adds New Products to Catalog	2
Remco keeps your cleaning tools together by color	2
SATech supports you and your workers	2
Wiremation Sprockets	3
Lumsden Edgewise Belt	3
BS&k works for you	3

Special points of interest:

- Pobco expands the PET product offering
- KVP has new products to show .
- SATech has the next generation of anti-fatigue mats to support you workforce.
- Wiremation Introduces standard sprocket driven mesh belts
- REMCO can clean up your sanitation problems.
- Lumsden's "Edgewise" untangles your problems.

POBCO ADDS TO THE MANY COMPONENTS THEY MAKE FOR CONVEYORS AND CONVEYING

Pobco has the new 2007 catalog out. It contains 128 pages of conveyor components such as Lube Filled Chain guides, Slit Flange Bearings, Roller Chain Guides, with #50 K-1 attachments, Low Friction UHMW Neck Guides, Accumulator Conveyor Tubing, one and two piece Spools, Medium Duty Sanitary Mounts, Pillow Blocks, 2 bolt Side Flange, 3 bolt Flanges and 4 bolt Side Flanges, plus a whole lot more.

REMCO PRODUCTS

REMCO KEEPS YOUR WORKPLACE CLEAN AND SANITARY

Products from Remco can be color-coded to help divide the production cycle into different zones or tasks. By identifying these as different cleaning areas, the movement of contaminants around the production area can be effectively blocked.

Let **BS&k** show you how **REMCO** products can clean up your sanitation problems and let you get back to what you do best, that is, running

SATECH
SEAMLESS ATTENUATING TECHNOLOGIES

TRUE ANTI-FATIGUE TECHNOLOGY TO REDUCE INJURIES AND FATIGUE AND INCREASE PRODUCTIVITY

SATECH offers the marketplace a new generation of cushioning technology for workplace, healthcare, athletic and equestrian applications to reduce fatigue and injury and improve productivity. SmartCells® mats feature solid rubber edges.

ductivity. Standing workers experience less back, leg and foot pain, from SmartCells anti-fatigue mats, runners and platforms. Elderly and frail individuals are pro-

vided fall protection from SmartCells shock-attenuating surfaces. Athletes train more efficiently with less injuries due to Smart-

WIRESMATION "GIVES TEETH" TO SPROCKET DRIVEN MESH BELTS WITH TRAXX-RITE

Wiresmation introduces a line of sprocket driven mesh belts. By incorporating a Balanced Weave Belt with a corresponding sprocket, positive tracking can be achieved.

This belt is used in the food industry where a tight transfer or exact timing is needed. The sprocket eliminates belt slippage when the product or process creates slippery conditions. The teeth of the sprocket

meshes into the openings of the belt to create a positive drive. Much less expensive than heavy chain edge belts.

Don't be fooled by others that tell you it can't be done or they are the only company that can make this happen. Wiresmation has been doing this for years and has many satisfied customers.

Now, we offer a standard product line of meshes and sprockets.

Let us show you what we can do!

LUMSDEN'S EDGEWISE BELT HAS DRASTICALLY REDUCED BELT WASTE DUE TO TANGLING

Lumsden's Edgewise edge has proven to many customers that this design prevents tangling and catching of the wires both on and off the machine. They come off the rolls un-tangled, they don't catch on adjoining belts, and there are no ends to bend open and break.

Less downtime, less scrap and

With the edgewise edge, wires do not have to be opened and then closed again to splice belt. This prevents the ends from breaking off, and having to re-splice the belt,

Edgewise edges are available on all belts in the 3/8", 1/2" and 5/8" pitches. The part numbers get a "6" in front of them, but everything else stays the same.

BS&k COMPANY INTEGRATES LOCAL SERVICE WITH NATIONAL KNOWLEDGE

The BS&k company has been providing local service to companies for 9 years.

Knowledge that we have gained from national companies has allowed us to service companies locally, the way most national companies get serviced. Let us work with you and provide the following:

- Plant Surveys
- Complimentary Product lines
- Competitive Pricing
- On-site troubleshooting
- Installation Assistance
- Order History Analysis
- Stocking Plans

Contact us today and let us show you what we can do for you. No cost / no obligation! Ask for our CD with literature and other information on it. (800) 634-1114 (Toll free)
