

IN MOTION FOR YOU ...

Fall 2015

Volume 16, Issue 4

NX-KEM-NX-TEC HELPS YOU GET READY FOR THE DREADED COMING WINTER!

We have all been enjoying our warm weather, but we also all know what is coming soon. Nx-Kem has put together the most popular products to fight the ice and snow. No, it's not too early to get ready. Be prepared this Winter with our excellent line of Winter Products! Products for floors to plows, we've got you covered!

**Liquid Ice Melt:** An alternative to harmful pellets. XL-9020-05

**Jack Frost:** Spay Jack Frost on your automobile windows and locks XA-9001

**Plow:** use on your equipment to prevent rust and corrosion XL-2610-05

**Winterinse:** Use Winterinse to remove the corrosive salt film left on entranceway floors during winter. XL-4020-05

**Mr. Melt:** Our ice melting compound contains 94%-97% calcium chloride and works down to -30°F & up to 12 hours. 100LB = XN-9010-ECO 40LB = XN-9010-PAIL

**Winterizing Wax:** A special blend of silicone and wax that provides a slick, non-stick coating that prevents ice and snow from sticking to plows, shovels and other snow removal equipment. CPC-16411

**Krusher:** Blend of Potassium and Sodium chloride, Orange color for even coverage. Effective up to 0°F XN-9050-50

**Ice Attack:** Blend of potassium chloride, calcium chloride, sodium chloride, and urea. Effective up to -12°F. XN-9030-50

**Salt Buster:** Salt & chloride neutralizer for equipment and vehicles. XL-8200-05

And so much more. Give us a call at 1 800-634-1114

**Inside this issue:**

Our Sidewinder dramatically increases the life of your metal belting.	2
Traxx-Rite eliminates mis-tracking	2
Ashworth has you spiral belts	2
POBCO has the 2016 catalog out for all your conveyor components	3
Lumsden's Edgewise stops tangles	4
REMCO keeps your cleaning organized	5
BS&k Can work for you	5

**Special points of interest:**

- **Lumsden** solves the dreaded problems of "belt snagging".
- **Wiremation** Introduces standard sprocket driven mesh belts
- **Wiremation** increases the life of your metal belts if stretch is the problem.
- **REMCO** can clean up your sanitation problems
- **Pobco** expands PET product offering and offers the new 2016 catalog

**LUMSDEN BELTING**

## SIDEWINDER HELPS REDUCE STRETCH AND MESH DAMAGE IN THE TOUGHEST APPLICATIONS

Lumsden introduces the new **Sidewinder Belt Family**. Balance weave belting has been around for over 100 years with minor improvements over time. There are companies that offer round wire and some that offer top flattened wire, but none have been able to conquer the challenge of shaping the **sides** of the wire, until now. Through years of R&D, Lumsden Belting has found the answer to everyone's question... How can I make my belts last longer? The answer is in the shape of the wire. With Lumsdens' patented side shaped wire design, you can extend your belt life up to **8 times** longer than your current comparable belt.

- Side shaped wire increases strength, Flattened sides reduce carry over
- Greater open area. , Minimal stretch, Quick and easy to splice

With Lumsdens' patented side flattened wire, the "I-beam" design gives 3 times greater structural support for your product versus the standard round

## WIREFIMATION TRAXX RITE HELPS KEEP YOU TRACKING WITHOUT EDGE DAMAGE

**Traxx Rite®** is our patented sprocket-driven line of woven wire conveyor belts. The positive driven belt ensures precision tracking of your conveyor and eliminates belt slippage in wet or oily conditions. Traxx Rite® belting is offered in a wide array of opening sizes and wire diameter. Traxx Rite® is ideal for any application that needs air flow to cool the product, openings so that any breaching or batter can easily fall through or tighter weave for smaller products to stay put for further processing. The splicing process is as simple as any balance weave belting you may already use, but much easier than other types of open surface area belting. Our Traxx Rite® line of belting is FDA approved to be used in all food processing applications.

We have designed an abbreviation of the normal 8-10 character specifications to simplify the ordering process. Please contact us if you have any questions on these.

## SPIRAL BELTS, INSTALLATION AND SERVICE

Ashworth, the inventors of the low tension spiral systems, are manufacturers of turn curve belts made from metal, hybrid metal and plastic. We can design, inspect, repair, retrofit, rebuild and install a belt for you.

Let the experts work on your spiral. You will see the difference from the beginning through the work and installation. Call today and let us show you how we can help you with the latest designs, applications and products, including our Self Stacking Belt, the ExactaStack™..

# POBCO PLASTICS LATEST CATALOG HAS MANY NEW ITEMS TO REDUCE YOUR FRICTION AND YOUR COSTS

## POBCO Products

- Plastic Guide Rails
- Plastic, Stainless Steel Brackets
- Rollers (Plastic, Steel & Wood)
- Bearings (Plastic & Wood)
- Plastic Sheet Stock
- Plastic & Wood Rod Stock
- FEP Shrink Fit Roll Covers
- Special Rollers
- Teflon Coated Fabric/Tapes/Belts
- Pressure Sensitive Plastic Adhesive Wear Tape

## POBCO Capabilities

- Extruding
- Molding
- CNC Machining
- Screw Machining
- Turning
- Milling
- Routing
- Secondary Operations
- Assembly
- Custom Machined & Extruded Profiles & Shapes
- Die Cutting/Punching

## POBCO Materials

- ULTRA-D® UHMWPE (Ultra-High Molecular Weight Polyethylene)
- Static Reduced UHMWPE
- UV Stabilized UHMWPE
- High Temperature UHMWPE (Fluid Lubricant-Filled UHMWPE)
- PLUS®
- Steel Filled UHMWPE
- High Wear CP, Black or Green
- Rulons® (Hi-Temp Food Grade 641, Bearing grades LR, J)
- Low & High Density Polyethylene (PE)
- Acetal (Delrin®, Celcon®)
- Delrin AF® (Teflon Filled Acetal)
- Delrin® (Also Lube-Filled & Oil Filled Types) (Solid Lubricant-Filled Delrin) (Fluid Lubricant-Filled High Temperature Plastic) (Lubricant-Filled Grey Nylon) (NylatronGS®)
- DELLUBE
- Nylon
- NYLUBE
- Nylon MD
- PVC (Polyvinyl Chloride) (High Heat Plastics) PTFE® Glass Filled (Urethane: Specify Durometer Reading & Color)
- TEFLON®
- Teflon
- POLYURETHANE
- POLYPROPYLENE
- Flurosint 207® (High Heat)

## POBCO® Guides and Accessories Overview

LUMSDEN'S EDGEWISE BELT HAS DRASTICALLY REDUCED BELT WASTE DUE TO TANGLING

Lumsden's **Edgewise** edge has proven to many customers that this design prevents tangling and catching of the wires both on and off the machine. They come off the rolls un-tangled, they don't catch on adjoining belts, and there are no ends to bend open and break.

Less downtime, less scrap and with the buffed edge, less cut hands. A real winner in all cases.

With the **Edgewise** edge, wires do not have to be opened and then closed again to splice belt. This prevents the ends from breaking off, and having to re-splice the belt, like other belts do.

**Don't forget your drive components!**

We can supply the sprockets, idle rollers, nose rollers as well as the wear strips and belt supports. The nose rollers, in addition to tracking, protect the "Z" bends of the belt. By replacing them before they wear down, you can increase the life of the belt and extend maintenance intervals. Let us show you how we can save you money.

WE PROVIDE SOLUTIONS TO YOUR AUTOMATION CHALLENGES

Wrabacon is a leading source for precision machine vision systems. Our goal is to consistently ensure that every aspect of the production of your products is monitored to ensure the highest level of quality and part integrity.

Wrabacon machine vision systems will ensure your product's quality. With our machine vision systems you can rest assured that consistent quality will become a reality for your products. Our machine vision systems are dependable, intuitive, and can be operated around the clock-increasing cost effectiveness and your own confidence in the product.

To better serve our customers, our machine vision systems include cutting - edge advanced imaging technology to automatically correct imaging inconsistencies and enhance image quality in order to improve the overall efficiency of the vision system. At Wrabacon, we know that the effectiveness of our vision systems is directly related to your cost and production efficiency. When it comes to precision and quality, we sacrifice nothing. Manufactured and Programmed with advanced recognition and processing software our machine vision systems offer extensive and conclusive Bar Coding, Date Code Verification, Part Integrity, Counting, inspection and identification.

## REMCO KEEPS YOUR WORKPLACE CLEAN AND SANITARY

Products from **REMCO** can be color-coded to help divide the production cycle into different zones or tasks. By identifying these as different cleaning areas, the movement of contaminants around the production area can be effectively blocked.

Let **BS&k** show you how **REMCO** products can clean up your sanitation problems and let you get back to what you do best, that is, running your business.

## BS&k COMPANY INTEGRATES LOCAL SERVICE WITH NATIONAL KNOWLEDGE

The BS&k company has been providing local service to companies for 10 years.

Knowledge we have gained from working with national companies has allowed us to service companies locally, the way most national companies get serviced.

With 30 years experience in sales and manufacturing environments, we know how critical it is to you to have your lines up and running, when you need them up and running. We won't let you down!

Let us work with you and pro-

vide the following:

- *Plant Surveys*
- *Complimentary Product lines*
- *Competitive Pricing*
- *On-site troubleshooting*
- *Installation Assistance*
- *Order History Analysis*
- *Stocking Plans*

Contact us today and let us show you what we can do for you.

Don't forget to ask us for your No cost / no obligation review

of your production lines.

We have a CD with our literature, catalogs and other information on it. Let us send one to you.

# Featured Application

**Application:** Stainless Steel Lifting Devices

**Principal:** SuperLift

SuperLift is A North American Supplier of Industrial Lifting & Handling Equipment including Scissor Lifts, Tilters, Up-enders, Turntables, Dock Lifts, Specialized Electric Lift Trucks. They also specialize in the custom manufacture of any lift device you can come up with. All Capacities are from 500 to 200,000 lbs

**Product: Stainless Steel Scissor Lifts.**

- Capacities from 250 lbs to 20,000 lbs
  - Standard lifts, ground level, lift and tilts, double lifts, low profile, heavy duty all available
  - 304 and 316 stainless steel polished #4 or mirror finishes
  - Stainless steel cylinders or ball screw units for precision applications
  - Lift heights to 120"
  - Custom lifts and powered drive also Available.
  - Powered by air, hydraulic or electric ball screw

**(800) 634-1114**
