IN MOTION FOR YOU ...

Winter 2007

Volume 9, Issue 1

**LUMSDEN
CORPORATION**

**LUMSDEN'S EDGEWISE
BELT HAS DRASTICALLY
REDUCED BELT WASTE
DUE TO TANGLING**

Edgewise edges are available on all belts in the 3/8", 1/2" and 5/8" pitches. The part numbers get a "6" in front of them, but everything else stays the same. The edges are buffed to remove any burrs which in the past have caused cuts on some hands and an unpleasant experience. That has improved and so has the life of the belts all because of the Edgewise edge.

For a sample or additional information, please call us at (800) 634-1114. We will be happy to send or bring you a sample of your belt and show you how this can save you time, and most importantly, money.

BALANCE WEAVE

FLEXX FLOW

BAKING BAND

FLAT WIRE

Lumsden's Edgewise edge has proven to many customers that this design prevents tangling and catching of the wires both on and off the machine. They come off the rolls un-tangled, they don't catch on adjoining belts, and there are no ends to bend open and break.

Less downtime, less scrap and with the buffed edge, less cut hands.

With the edgewise edge, wires do not have to be opened and then closed again to splice belt. This prevents the ends from breaking off, and having to re-splice the belt, like other belts do.

Inside this issue:

| | |
|-------------------------|---|
| POBCO adds New Products | 2 |
| KVP Exhibits in Atlanta | 2 |
| FP Laser Line-up | 2 |
| Wrabacon Innovation | 2 |
| Wiremation Sprockets | 3 |
| Material handling | 3 |
| BS&k works for you | 3 |

Special points of interest:

- Pobco expands the PET product offering
- KVP has new products to show to the Poultry crowd.
- FP Lasers eliminate time and material waste
- Wrabacon has innovative equipment for product handling
- Wiremation Introduces standard sprocket driven mesh belts
- REMCO can clean up your sanitation problems.

POBCO ADDS TO THE MANY COMPONENTS THEY MAKE FOR CONVEYORS AND CONVEYING

Pobco has the new 2007 catalog out. It contains 128 pages of conveyor components such as Lube Filled Chain guides, Slit Flange Bearings, Roller Chain Guides, with #50 K-1 attachments, Low Friction UHMW Neck Guides, Accumulator Conveyor Tubing, one and two piece Spools, Medium Duty Sanitary Mounts, Pillow Blocks, 2 bolt Side Flange, 3 bolt Flanges and 4 bolt Side Flanges, plus a whole lot more.

Call for your **FREE 2007 catalog** today! (800) 634-1114

KVP SHOWS SEVERAL OF IT'S NEW PRODUCTS AT THE WORLD POULTRY EXHIBITION IN ATLANTA, GA

Traction Pro: 1" pitch All-In-One belt with co-molded rubber top for the right amount Of needed friction.

Spiral Pro: 1 1/2" pitch, 1.3 turn radius spiral belt for coolers, freezers and proofers

Texture Top: 1/2" pitch belt with friction surface great for dough handling

SOLUTIONS THROUGH INNOVATIVE AND CUSTOM EQUIPMENT

Wrabacon designs and manufactures a variety of quality and innovative product handling equipment. From Conveyors to Mergers to Product Diverts to Accumulators to Tray Stackers and De-Stackers to Box Erectors to Feeders and specialty equipment. Wrabacon manufactures to exacting

specifications. They routinely fabricate in stainless steel as well as extruded aluminum and painted steel. Every piece of equipment, every

system is assembled and test run in our facility to assure a trouble free installation. Wrabacon guarantees that every system will perform as specified.

Call us today to let us add you to our growing list of satisfied customers.

FP LASERS WILL START SAVING YOU TIME AND MONEY THE FIRST DAY

Our MLM laser was specially made to respond to the demands of the metal and wood industries. It is essential in the industrial applications to have a small laser that can be easily fixed to the equipment (saws, presses, shears and edgers) that won't be in the way. Besides being small, our MLM model is made entirely Out of aluminum, which is an advantage because it is shock resistant and it makes the system very solid with the bracket. It is also important to mention that the electronic components inside the laser dissipate the heat, because of the aluminum. The heat is then transmitted towards other surrounding parts. This heat transmission phenomenon allows the electronic components to have a longer lifetime especially since heat is their worst enemy. There are special alloys that dissipate the heat by radiation. Our laser is completely sealed, which is water and dust proof. No particular maintenance is necessary. A protective lens uniform and with the right dimensions covers the front of the casing making it easy to clean to avoid wasting time cleaning hard to reach openings.

WIREIMATION "GIVES TEETH" TO SPROCKET DRIVEN MESH BELTS WITH TRAXX-RITE

Wireimation introduces a line of sprocket driven mesh belts. By incorporating a Balanced Weave Belt with a corresponding sprocket, positive tracking can be achieved.

This belt is used in the food industry where a tight transfer or exact timing is needed. The sprocket eliminates belt slippage when the product or process creates slippery conditions. The teeth of the sprocket meshes into

the openings of the belt to create a positive drive. Much less expensive than heavy chain edge belts.

Don't be fooled by others that tell you it can't be done or they are the only company that can make this happen. Wireimation has been doing this for years and has many satisfied customers.

Now, we offer a standard product line of meshes and sprockets. Let us show you what we can do!

TR 18-16-16, TR30-24-17,
TR30-31-16, TR42-36-18,
TR48-52-17, TR60-48-18/20
* others coming soon.

SANITATION & MATERIAL HANDLING

Remco Products introduces a line of metal detectable shovels, scoops, scrapers and mixing paddles. Produced with a specialized FDA-approved polypropylene resin that is easily detected by standard detection equipment. These tools are a great alternative to stainless steel.

(800) 634-1114
www.bsandk.com

Products from Remco are color-coded to help divide the production cycle into different zones or tasks. By identifying these as different cleaning areas, the movement of contaminants around the production area can be effectively blocked.

BS&k COMPANY INTEGRATES LOCAL SERVICE WITH NATIONAL KNOWLEDGE

The BS&k company has been providing local service to companies for 8 years.

Knowledge that we have gained from national companies has allowed us to service companies locally, the way most national companies get serviced. Let us work with you and provide the following:

- Plant Surveys
- Complimentary Product lines
- Competitive Pricing
- On-site troubleshooting
- Installation Assistance
- Order History Analysis
- Stocking Plans

Contact us today and let us show

you what we can do for you.
No cost / no obligation!
Ask for our CD with literature and other information on it.
